Refining Your Creative Elements

Display

The best ads are contextual, adapting to the content environment but also keeping in mind what's important to your audience right now. In these uncertain times, here are some ways you can adjust your creative elements to make them more relevant to what's happening in the world.

Best Practices

Creative

Lifestyle creatives outperform standalone creatives. Showcase your product in-home, in a kitchen or dining room. Use our Branded Video format to show your audience how to make a signature cocktail.

Copy

There are countless activities that can be done inside at home. Have your copy debut a new recipe or showcase how a beverage pairs perfectly with a virtual happy hour. If you are partnering with a delivery service, highlight that in your copy.

URL

Get your product in your target audience's hand with the most direct clickthrough URL. We suggest your brand's 'Where to Buy' page or an alcohol delivery site.
